

Get to know Jericho's green spaces!

Jericho's Green Health Routes map includes a neighbourhood walk along Walton Street where the cafes now spill onto the pavements in warm weather, and a stroll around the quiet streets of residential Jericho. There is also a relaxing canal walk.

Please use your own judgment about where and when you feel safe to walk.

Port Meadow

Reached from Walton Well Road or Aristotle Lane, beautiful Port Meadow is grazed by horses, cattle and geese and extends all the way from Jericho to Wolvercote. Always busy in Summer, it has become even more popular since lockdown and a magnet for picnickers, walkers and swimmers. Wildflowers include bird's-foot-trefoil, buttercups and white clover.

We'd love to hear how your walk went. Let us know on info@sustainablehealthcare.org.uk
